Affordable for drivers, no cost to you

By making Drivers Legal Plan available to your drivers, you have an important tool for:

- Protecting the interests of your drivers and your company.
- Recruiting qualified drivers who want to drive for a company that cares about their CDL.
- Retaining deserving drivers who may have been lost to unnecessary tickets/violations.

Here's what your drivers can expect from Drivers Legal Plan membership:

- Low weekly retainer \$2.98.

- For any moving, non-moving, or DOT violation, a flat fee of \$100 covers our work from start to finish. No exclusions, no limit on hours, no additional fees. This saves your drivers hundreds of dollars over referral companies!
- \$250 total fee for any simple accident.
- Drivers Legal Plan explains to the member driver any impact to his CSA SMS, or CDL. We advise actions for minimizing any issues or consequences and we never ask for additional fees. Plus, we automatically file the DataQ challenge for FREE.

In the words of our clients:

"When we considered the cost of replacing a driver that we might have been able to keep, along with the advantage to our CSA SMS of having their attorneys file automatic and free DataQ challenges, we concluded that offering Drivers Legal Plan was a no-brainer for us."

Chad England
CEO
C.R. England, Inc.

"We have had numerous incidents over the years where the timely, effective work of the Drivers Legal Plan attorneys has greatly reduced the liability exposure of our company. I could not begin to calculate how much they have saved us."

Dean Newell
Vice President of Safety and Training
Maverick Transportation, LLC

"Our association officially endorsed Drivers Legal Plan two decades ago, and our members' participation has been substantial. The feedback from our Board and members has been 100% positive, and this law firm's commitment to our industry is unrivaled"

Lane Kidd
President
Arkansas Trucking Association

"Free legal defense by Drivers Legal Plan for tickets written to our company has literally saved us hundreds of thousands of dollars in unwarranted overweight and out-of-route fines. The bottom line monetary benefit to our company is substantial, even before we consider how they support our drivers and safety initiatives."

Greer Woodruff
Vice President - Corporate Safety
J.B. Hunt Transport

"We had prior experience with legal insurance/referral plans that, frankly, was not that good. Because of the all-around service - and savings - we've experienced with Drivers Legal plan, we now consider this law firm an invaluable part of our company, and wholeheartedly encourage our drivers to enroll."

John Christner
Owner, President
John Christner Trucking, Inc.

"In today's CSA era for trucking, a driver must defend his MVR and SMS rating against any unwarranted points. Drivers Legal Plan law firm is simply the best and most affordable way for them to get that done."

Wilson Risinger
Vice President of Safety & Risk Management
KLLM Transport

A difference you can count on...

Your CSA rating and your drivers' CDL protection are too important to trust to anyone but an ACTUAL LAW FIRM dedicated to trucking defense.

Read on to learn the many ways Drivers Legal plan sets itself apart, and above, legal referral services that don't protect your drivers or your company - then contact Drivers Legal Plan to get the protection and true legal expertise you need.

1

A law firm that is dedicated to trucking- not a referral service

Our attorneys have specific experience in CDL defense and CSA protection. Your drivers will work directly with our attorneys as opposed to referral plans that might utilize attorneys with no transportation experience.

2

FREE DataQ Challenges

Drivers Legal Plan Attorneys file automatic and free DataQ Challenges for every defended citation, protecting both the driver and your company from crippling CSA SMS points.

3

No conflict of interest

The attorneys of the Drivers Legal Plan Law Firm have a direct relationship with your drivers and you, therefore, we can never advise a driver to action that would be detrimental to your company. In contrast, referral services can put you at risk of being involved in legal action contrary to your company's interests.

4

Free defense of tickets for member companies

Drivers Legal Plan defends client companies on any tickets written directly to the company at no charge. A referral company cannot offer this benefit because they're not attorneys -- they're middlemen who could send you to an attorney that may not have trucking law experience, but would charge you an additional fee.

5

Reduce Civil Litigation Exposure

If an undisputed accident or incident results in a civil case, Plaintiff's attorneys can argue a predisposition of guilt. Drivers Legal Plan can help mitigate that risk and limit your liability by offering successful defense of the underlying citation.

6

Drivers Legal Plan keeps you informed

You'll be notified whenever a driver contacts us regarding an issue so you're never blindsided by a potential problem. We also stay in regular contact with your safety department, providing notification of all member safety events to enable proactive safety measures.

7

Enjoy substantial company savings

Drivers Legal Plan can reduce your administrative burden, allowing you to effectively repurpose personnel previously committed to citations/fines/CSA compliance. Our services are FREE, which results in great savings for you!

8

Send the right message

Our plan rewards good drivers with minimal cost while discouraging violations. Your company safety policy is never compromised.
